PRESS RELEASE

Bio-Oxygen Exhibiting at HVAC 2016 Construction Week Show

Air filtration and purifier company to be exhibitor in UK

UK, October 17, 2016:

Bio-Oxygen, a leading provider of air filtration and air purifiers, will be an exhibitor at the HVAC 2016 Construction Week Show. HVAC is the only UK show specifically dedicated to heating, ventilation and air conditioning in the construction industry.

Bio-Oxygen is a leading provider of modern air filtration systems in Australia, Dubai, Asia and Germany. Patented technology from Bio-Oxygen delivers results with scientific backing.

A spokesperson says, "Organisers are pleased to announce that HVAC 2016 will host the official European launch of pioneering air treatment company **Bio-Oxygen**. The company will be showcasing its air sterilisation system, which guarantees odour free results along with 99 per cent elimination of viruses and bacteria."

Bio-Oxygen produces products in Australia and has a new office in the UK. Staff will be located at stand H4-966, in the category of sustainability ventilation services.

Details of the show are available at the HVAC 2016 web site:
